The 2009 Wittel Farm Summer Day Program will help children gain a deeper understanding of the natural world that God created and calls us to care for. Nature and environmental games, and activities in the woods, fields, and streams will help teach the "Creation Explorers" about the environment, its plants and animals, and the natural systems that sustain them. Theme-related Bible study, crafts, and worship will encourage our "Creation Explorers" to be thoughtful caretakers of the world that God created.
